

SOCIAL WORK

UNDERGRADUATE PROGRAM

COLLEGE OF HEALTH
CLEVELAND STATE UNIVERSITY

SOCIAL WORK

Social work is the practice-based application of values, principles and techniques to enhance the well-being of vulnerable populations. Social workers ensure that basic needs are met and help address the myriad challenges these individuals encounter—including mental health, substance use, geriatric care, poverty, juvenile justice and PTSD.

CSU's accredited program prepares students for professional work across hundreds of agencies as licensed social workers (LSW) in the state of Ohio. We offer courses in-person and online for flexible scheduling and encourage community-based service. Gaining a deep understanding of human behavior and cultural and societal institutions, our students move on to advocate for and empower individuals to face obstacles, overcome social injustice and remove barriers that promote social change.
