Coursework older then 6 years is not accepted. The following prerequisites are generally accepted if they meet the following descriptions...

ANATOMY- This prerequisite can be met with Anatomy & Physiology I and Anatomy & Physiology II with corresponding lab courses, OR this can be met with a Human Anatomy course with lab.

BIOLOGY- Cell Bio preferred, but General Biology courses can be accepted if they have a cellular component. This course must be designed for science majors and have a lab. Biology must be at least 4 credits.

CHEMISTRY I & II- Sequence of Chemistry I and II. This course must be designed for science majors. Students must take a Chem I course and Chem I lab(Chem II and Chem II lab) to meet this requirement. Chemistry courses must be at least 4 credits.

PHYSICS I & II - Sequence of both Physics I and II. This course must be designed for science majors. Students must take a Physics I course and Physics I lab(Physics II and Physics II lab) to meet this requirement. Physics courses must be at least 4 credits.

PSYCHOLOGY- Students are required to take a minimum of one Psychology course in any area. Introduction to Psychology is suggested. Psychology course must be at least 3 credits.

**STATISTICS** (CSU Course – MTH/STA 347 or PSY 317)– This class must be upper division (300/400 level or junior/senior level). No coursework achieved via AP credit is eligible to complete this prerequisite.

Below you will find the results of courses the CSU DPT program will accept/deny from specific colleges.

- ** Please Note: Courses completed via AP credit are NOT eligible to count towards prerequisite coursework for the Cleveland State University DPT program. Prerequisite coursework must be completed at a university/college to be considered eligible.
